INTERNATIONAL

Case Study 1: Small Product Line

- Parallel development of 3 products
- Existing architecture
- 3 (feature) teams
- 1 test team
- 1 UI team
- UI design requires 2 weeks

 **Normal Req-Item**

 **Req-Item needing UI**

UI State

UI Req	UI Design

Case Study 1: Small Product Line

- Value stream was posted on white board as Kanban
- Work targets are printed and pasted

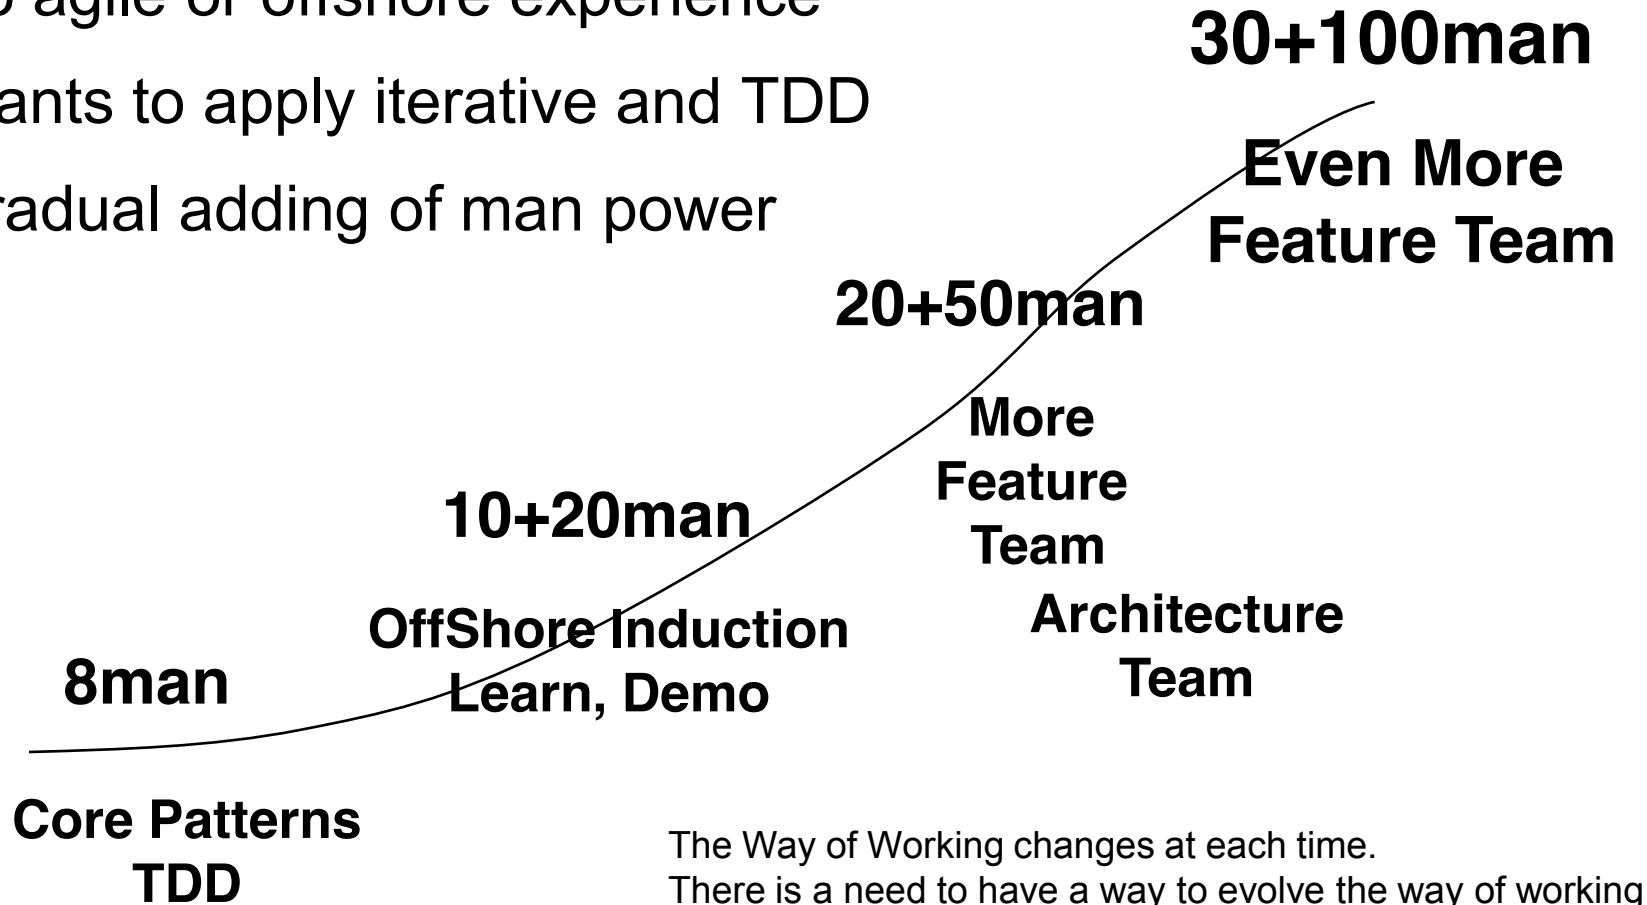

Case Study 1: Small Product Line

- Daily meeting was still using EXCEL – No Good!
- Finally, SEPG decided to get everyone to conduct daily meeting on Value Stream

Case Study 2: Big Project, Offshore

- Japan, China – 50 + 200 people
- No agile or offshore experience
- Wants to apply iterative and TDD
- Gradual adding of man power

Case Study 2: Big Project, Offshore

- Each team has own type of backlog
